

BENCH SEAT™ COVER Installation & care

Installation:

1) Clip adjustable straps (A) around your bench seat head rests so that the cover aligns itself with your vehicle's seat.

2) OPTIONAL There is an optional back strap (B) that attaches around the back of your seat, clipping together in the back. This is for extra fitting support in vehicles where the seat folds down.

3) The under-seat bungee cord (C) simply slips through triangle (D) and ties to the left and right D-rings (E). Tie straight across, leaving no slack; tuck under the edge of the seat there may be extra bungee left over!

4) OPTIONAL At the end of the excess bungee you will find clips (F). These are optional, and used for extra fitted support around the bench portion of your vehicles seat. (See figure 1)

5) Use the extra storage pockets (G) for anything you like! We suggest lots of fun dog stuff!

Washing instructions:

- Brush off loose dirt with a dry brush.
- As needed, wipe off with a damp sponge and mild soap.
- Rinse only, if possible. Use cold water and a sponge or rinse in a tub without soap.
- Machine wash in front-loading unit (DO NOT use machine with agitator, agitator could cause damage not covered under warranty) with cold water and mild soap (Ivory Flakes, Woolite, Sport Wash, Etc.) No detergents.
- Rinse thoroughly to eliminate soap residue.
- Lay flat to dry.
