

"Rocket" - Australian Cattle Dog mix

## **KEEP FIDO SAFE AND IN HIS PLACE**

Dogs moving around freely in cars are a huge safety hazard to themselves, the driver, and the passengers. The Backseat Barrier keeps everyone safe by creating a strong wall between the front and back seats of the car. This wall keeps the dog safely in the backseat when the car stops quickly and restricts excited pups from moving between the front and back seats of the vehicle. The Backseat Barrier also has an extra partition, which separates passengers from dogs in the backseat. Great for long trips, or just around town.

### **Benefits:**

- Protects dog from launching forward during quick stops
- Protects passengers and cargo from roaming dogs
- Front seat stays clean of dog hair
- Universal fit for most vehicles from a compact to a SUV
- Removable top portion to accommodate smaller dogs

**Dimensions:** Package: 7"W x 16"H x 3"D

**Materials:** Ballistic nylon / Ultrasuede

**Available colors:** Black with tan detailing

**Part number:** 00006
